

How to Discharge a User

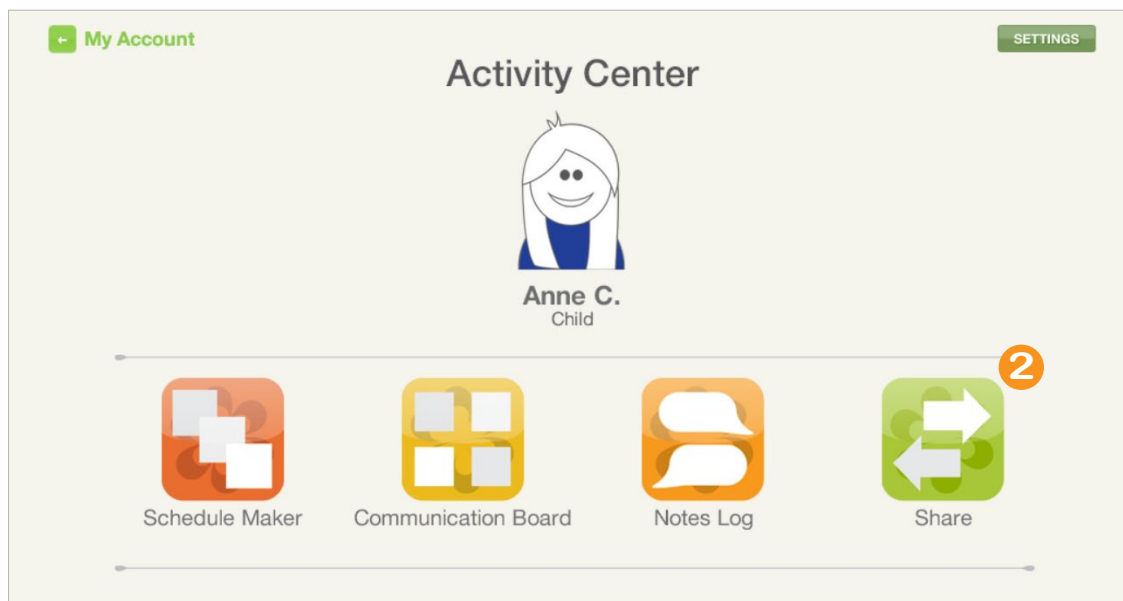

A parent/guardian can discharge someone they've shared to at any time. Here's how.

- 1 From your account home page, select the child's account that has the user you want to discharge.

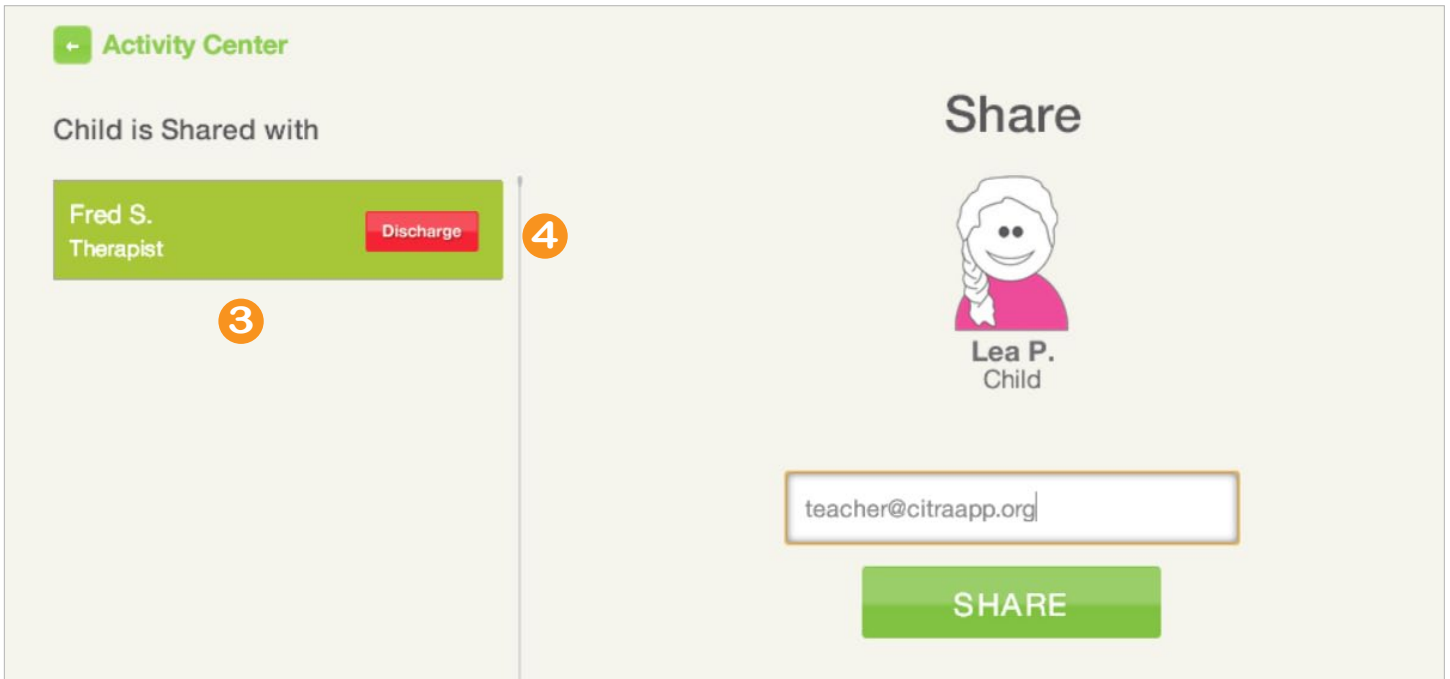

Above: Your home screen.

- 2 From the child's home screen, select Share.

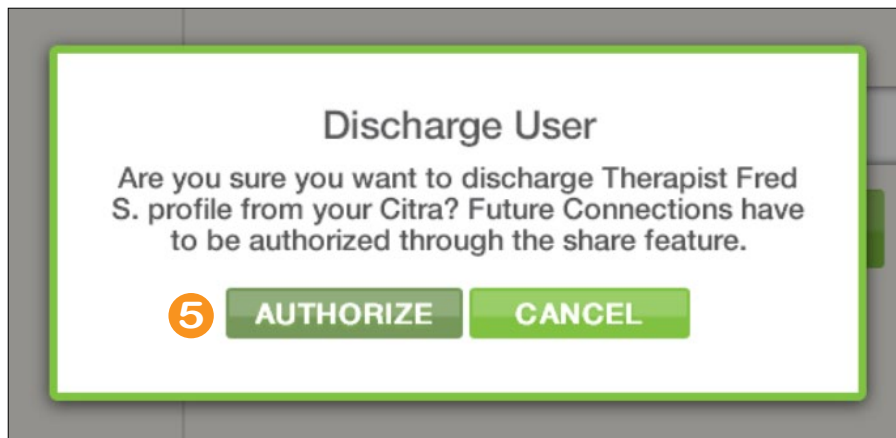

Above: The child's home screen. You can manage your shares from here.

- 3 Select the party you wish to discharge.
- 4 Select discharge.

Above: You can discharge a user from the child's Share screen.

- 5 Select Authorize.

Above: You must select Authorize to finish discharging the user.
